Watchable Wildlife Guide Available!

This 64-page pocket guide contains more than two dozen full-color wildlife photographs and descriptions of 62 great places in Maine to go in search of that once-in-a-lifetime photograph or that ever-remembered glimpse of wildlife in its natural setting. Most of the sites listed are on publicly-owned land, but **all** sites are open for careful public use and enjoyment.

The book is organized by geographic regions and describes each site in detail — how to get there, the species you might expect to see, details on the availability of restrooms, parking, and other facilities, and much more, in-

cluding information on access for persons with disabilities.

The guide is published by MAINE FISH AND WILDLIFE Magazine, generously assisted by many volunteer naturalists and photographers throughout the state. Production funding was provided through the magazine's budget, which in turn will benefit from proceeds from sales of the book.

"TRAP" means any device that is designed primarily to catch or hold wild animals, including, but not limited to, a foothold trap, killer-type trap, cage-type trap or a snare.

DISTURBING TRAPS

It is a violation of law for a person to take or disturb any trap or any wild animal found caught in any trap without the consent of the trap owner. A landowner is entitled to remove traps found on his property if permission to trap has not been granted. Any person convicted of disturbing traps, in addition to any penalty which may be imposed by a court of law, will not be eligible to purchase any license issued by the Department of Inland Fisheries and Wildlife for a period of three years.

1. **Closed season.** There is a closed season for the trapping of any species of wild animal or wild bird for which an open trapping season is not specifically provided.
2. **Closed season violation.** It is unlawful to trap any wild animal or wild bird during the closed season on that species or possess any wild animal or wild bird taken during the closed season on that species.
3. **Unlawful conduct.** It is unlawful to trap, possess or transport any wild animal or wild bird, or parts thereof, except as provided in the fish and wildlife laws.
4. **Traps to be labeled.** It is unlawful for a person to set any trap for wild animals without having the trap plainly labeled with his full name and address.
5. **Written permission to trap.** It is unlawful for any person to trap, except for beaver, on land in any organized or incorporated place, without first obtaining written permission from the owner or occupant. It is also unlawful for any person to trap, except for beaver, without written permission from the owner or occupant, on the following lands in unorganized places:

- a. Cultivated or pasture land which is used for agricultural purposes and on which is located an occupied dwelling; and
 - b. Land within 200 yards of any occupied dwelling (organized towns also).
6. **Traps to be visited in organized places.** A person who traps in any organized or incorporated place is required to visit each trap, except under-ice water sets for beaver and muskrat, at least once in every calendar day, including Sunday.
7. **Traps to be visited in unorganized places.** A person who traps in any unorganized or deorganized place is required to visit each trap, except killer-type traps and water sets, so-called, at least once in every calendar day, including Sunday. Each killer-type trap or water set, so called, except under-ice water sets for beaver and muskrat, must be visited at least once in every 5 calendar days, including Sunday. (WATER SET means a trap set completely under water in such a manner as to reasonably ensure the drowning of any furbearing animal caught in the trap).
8. **Animals to be removed.** It is unlawful for a person to fail to remove any animal found caught in his/her trap.
9. **Trapping in populated areas.** It is unlawful for any person to trap outside his/her own land, within 1/2 mile of the compact, built-up portion of a city or village, except by the use of cage-type live traps and water sets.
10. **Trapping close to muskrat or beaver houses, etc.** It is unlawful to place, set or tend any trap within: a) 10 feet of a beaver house, muskrat den or house; b) 5 feet of a beaver dam, or c) 4 feet of a beaver trap which has been set by another trapper.
11. **Beaver trapping by non-resident.** It is unlawful for a non-resident to trap for beaver in this State.
12. **Advance preparation.** It is unlawful to make any advance preparation on the trapping grounds for the taking of beaver or muskrat previous to the open season on these animals.

13. **Pre-season trap placement.** No person shall stake, hook, fasten or position a trap at any trap site location in the fields, forests or waters of the State prior to opening day of the trapping season.
14. **Molesting muskrat or beaver house, etc.** It is unlawful to damage, molest or destroy a beaver house, a muskrat house or den or a beaver dam.
15. **Other provisions for trapping bear.**
 - a. It is unlawful to set a bear trap unless it is enclosed by 2 strands of wire, one 2 and one 4 feet from the ground. The wire must be held securely in position not less than 5 yards nor more than 10 yards from the enclosed trap. The enclosure must be marked with signs bearing the words "BEAR TRAP" in letters at least 3 inches in height, and the signs must be spaced around the enclosure, securely attached to the top strand of wire, at intervals of not more than 20 feet. (NOTE: These provisions do not apply if cable traps are used).
 - b. No person may have more than 2 traps set for bear at any one time.
 - c. All bear traps must be visited by the trapper at least once in each calendar day.
 - d. Cable traps with a closing diameter of not less than 2-1/2 inches may be used in trapping for bear.
 - e. It is unlawful to catch a bear in a trap and allow another person to kill or register that bear.
 - f. It is unlawful to present a bear for registration which has been field dressed in such a manner that the sex of the animal cannot be determined. Each bear must be presented for registration in its entirety, except for the viscera and rib cage, but the animal may be dismembered for ease of transportation.
16. **Eels for bait.** Licensed trappers may obtain a permit from the Commissioner to take not more than 20 pounds of eels annually for use in baiting traps.

LAWS PERTAINING TO TRAPPING EQUIPMENT

1. **Traps.** Wild animals may be trapped with common ordinary steel traps or killer-type traps. (NOTE: Killer-type traps include the conibear trap, so called, and all other traps of that type). Furbearing animals may be trapped with a common cage type live trap.
2. **Killer trap restrictions.** It is unlawful to use killer type traps with a jaw spread greater than 5 inches, except as follows:
 - a. Killer-type traps with a jaw spread of not over 8 inches may be used only if set completely under water or set at least 4 feet above the ground or snow.
 - b. Killer-type traps with a jaw spread of over 8 inches and snares may be used during the open season on beaver only if set completely under water.
3. **Traps with teeth.** It is unlawful, in WMU's 4, 7 and 8, to use any trap with teeth on the jaws from the opening day of the trapping season to the opening day of the firearm season on deer unless the trap is completely covered by water.
4. **Auxiliary teeth.** It is unlawful to use auxiliary teeth on any foot-hold trap set on dry land.
5. **Cable trap.** Cable traps with a closing diameter of not less than 2 1/2 inches may be used in trapping for bear.
6. **Pole trap.** It is unlawful to use any steel trap on the top of a pole, constituting a device known as a "pole trap", for the purpose of catching wild birds.
7. **Snares.** It is unlawful to trap with the use of snares except that snares may be used under water to trap beaver.
8. **Firearms.** It is lawful for a person who holds a valid trapping license to carry a firearm during the open trapping season for the sole purpose of dispatching trapped animals.

TRANSPORTATION AND TAGGING

1. **Transportation of game by resident.** Any resident may transport to his home any wild animal or wild bird which he has killed and which is legally in his possession.
2. **Transportation of game by non-resident.** Any non-resident may transport or have transported to his home by common carrier, any wild animal or wild bird which he has killed and which is legally in his possession.
3. **Open to view and accompanied.** Unless otherwise provided, any wild animal or wild bird transported shall be open to view and accompanied by the person who killed that animal or bird, except that a wild animal or wild bird transported for non-residents by common carrier need not be accompanied by the owner. (See special provisions under Laws Pertaining to Deer and Bear).
4. **Unlawful transportation.** It is unlawful to transport or offer for transportation any wild animal or wild bird except as provided in the fish and wildlife laws.
5. **Transportation in closed season.** It is unlawful to transport any wild animal or wild bird in closed season, except that any person who has taken any wild animal or wild bird in open season shall have a reasonable time after the beginning of the closed season to transport that animal or bird to his home.
6. **Furbearers to be tagged.** The raw skin of any beaver, bobcat, coyote, fisher, fox, marten, mink, or otter must be presented to a warden or other agent of the Commissioner for tagging. All information requested concerning each skin must be reported truthfully and accurately. A fee of 25¢ must be paid for each skin tagged.
7. **Fur to be tagged within certain time.** The raw skins of the above named species must be presented for tagging within 10 days after the close of the open season on that species, except that the raw skin of bobcats taken during the hunting season must be presented for tagging within 72 hours of the time the

animal was killed. (Note: Of the eight furbearing species which require tagging, only bobcat, coyote and fox may be taken by hunting).

8. Possession of untagged fur. It is unlawful to possess, sell, give away, buy, accept as a gift, offer for transportation or transport the raw skin of any beaver, bobcat, coyote, fisher, fox, marten, mink, or otter unless each skin is tagged.

9. Imported fur. The raw skins of the above named species which are imported from any other state, country or province must bear the official stamp, tag or seal of that state, country or province. If that state, country or province requires no official stamp, tag or seal, each imported skin must be tagged in this State by the person in possession in the same manner as described in #6 above. (Note: Raw skins imported by taxidermists solely for taxidermy purposes need not be tagged).

FUR TAGGING STATIONS.....Fur tagging stations are located throughout the State. To determine the location of a fur tagging station in your area, call the nearest Warden Headquarters. (Toll-free numbers are listed on page 4).

TAGGING OF FROZEN SKINS.....It is almost impossible to insert a fur tag into a frozen skin unless certain steps have been taken prior to freezing. If there is any possibility that your furbearer skins will be frozen at the time they are presented for tagging (whether skinned or in the round) would you please insert a popsicle stick, tongue depressor, or similar object from the mouth hole through one of the eye holes prior to freezing. Removal of the stick or other object at the time of tagging allows the fur tag to be easily inserted in the skin without the need for partial thawing. **Tagging agents may refuse to tag frozen skins which have not been prepared as requested above.**

FEDERAL EXPORT PERMIT.....Federal law requires an export permit for any transportation of otter, bobcat, black bear, and ermine, or parts thereof to points outside the United States. For further information and permit applications, write: U.S. Fish and Wildlife Service, Office of Management Authority, Room 420C, 4401 North Fairfax Drive, Arlington, VA 22203, Telephone (703)358-2104.

GENERAL INFORMATION

NOTICE TO DOG OWNERS.....It is unlawful for any dog to run at large at any time, except when used for hunting. (AT LARGE means off the premises of the owner and not under the control of any person by means of personal presence or attention). It is unlawful for any dog to chase, wound, or kill a deer or moose at any time, or any other wild animal in closed season.

TREE STANDS.....It is unlawful to insert any metallic or ceramic object into a tree on land of another for the purpose of erecting a ladder or tree stand. All ladders or observation stands erected on another person's land must be removed by the beginning of the 10th day following the close of the hunting season, unless written permission is obtained from the landowner.

AIDING ACCIDENT VICTIMS & REPORTING ACCIDENTS..... Any person who knows or has reason to believe that he/she has inflicted injury to another person by the use of firearms or bow and arrow is required to make themselves known to the victim and render such first aid and assistance as he/she is capable of under the circumstances. He/she is also required to report the incident, by the quickest means, to a game warden or other law enforcement officer.

HUNTER ORANGE CLOTHING.....Anyone who hunts with a firearm during the open firearm season on deer is required to wear **two** articles of solid-colored hunter orange clothing (fluorescent orange) that are in good and serviceable condition and visible from all sides. One article must be a hat. The other article of clothing must cover a major portion of the torso, such as a jacket, vest, coat or poncho. The presence of a decal on an article of clothing that is otherwise solid-colored hunter orange does not disqualify that article of clothing from satisfying the requirements of this subsection. HUNTER ORANGE means a daylight fluorescent orange color with a dominant wave length between 595 and 605 nanometers, excitation purity not less than 85% and luminance factor of not less than 40%. (Note: Waterfowl hunters who are hunting from a boat, blind or in conjunction with waterfowl decoys are exempt from this requirement). **Anyone who hunts any species with a firearm in the moose hunting district must still wear one article of hunter orange clothing.**

GENERAL INFORMATION

MUNICIPAL FIREARM ORDINANCES.....Several Maine cities and towns have adopted local ordinances which restrict or prohibit the discharge of firearms. These ordinances have been enacted in the interest of public safety. Prior to hunting near thickly settled communities, hunters should check with local authorities concerning the possible existence of firearm ordinances.

A CAUTION ON LIVER AND KIDNEY CONSUMPTION....The Maine Department of Inland Fisheries and Wildlife and the State Bureau of Health recommend that the liver and kidneys of moose not be eaten because of possible contamination with the heavy metal cadmium. Also, recent studies have shown smaller amounts of cadmium in liver tissues from Maine deer, and deer, elk and antelope from other States. Maine health officials recommend that deer liver consumption be limited to 0.8 pounds in one sitting and 1 to 1-1/3 pounds per week. Human symptoms of acute cadmium poisoning include severe nausea, vomiting, diarrhea, muscle cramps and salivation. **There is no known health risk from eating moose meat or deer meat.**

HUNTER CHECK STATIONS.....We suggest that whether you are successful or not, you stop in at one of the Department's deer hunter check stations (which are not registration stations). Our wildlife biologists collect information which is valuable in determining regional deer herd productivity and condition and figuring sex and age ratios. You will receive facts and figures from last year's season, and the information you provide will be a basis for management decisions to be made next year.

BIG BUCK SKULL AND ANTLER TROPHY CLUB.....Maine has a club for deer hunters called "The Biggest Bucks in Maine Club", which is sponsored by THE MAINE SPORTSMAN (Box 507, Yarmouth, ME 04096). To qualify, a hunter must shoot a buck weighing at least 200 pounds (field dressed). Application blanks are available from Department wardens and biologists. In addition, any hunter who takes a trophy deer, bear or moose may wish to obtain information concerning The Maine Skull and Antler Trophy Club. Contact Richard P. Arsenault, The Maine Skull and Antler Trophy Club, RR 15, Box 190, Gorham, ME 04038.

The original version of this poster was silk-screened sometime in the mid-1940s, we believe. But this poster's message is just as relevant today as it was 50 years ago — it needs to be repeated often, while there are still some fish to throw back.

Our 14" by 18" (about half-size) full-color reproduction of this handsome and topical poster is available for only \$5, shipping and handling included. It will be shipped well-protected in a flat package to preserve it for framing and hanging.

PROJECT LandShare

ASK FIRST.....Most outdoor recreation in Maine takes place on private property through the generosity of the landowner. Only by respecting landowners and their property can we be sure we will have land available in the future for the various forms of outdoor recreation we enjoy, including hunting and trapping. If you know you are welcome to use someone's land, don't abuse the privilege. If you don't know whether you are welcome, find out. If the land is posted or you know you are not welcome, find another location. A hunting or trapping license does not give you the right - stated or implied - to go on another person's land against their wishes. **ALWAYS SEEK PERMISSION** before engaging in any form of outdoor recreation on property which belongs to someone else.
